### IN FEBRUARY 2021, THE PRICES OF THE CONCRETE PLYWOOD WERE INCREASED (TEMPORARILY)

There are currently two major global trends: (1) a general shortage of raw materials and (2) a general problem with shipping containers. Our ambition, however, is to be able to reduce certain price increases again once the situation normalizes.

## POLYMER (600 ML /PIECE)

PER PIECE	€ 9,87
PER BOX (20 PIECES)	€ 197,40
To process 1 pallet of concrete plywood, you need about 3 boxes of polymer.
